Professional Experience

Senior Software Engineer & Product Lead | Sibasi Ltd

November 2020 - Present | Nairobi, Kenya

Leadership & Management:

- ▶ Lead the **EBM Suite** team of 6 engineers, focusing on team growth, mentoring, and cross-team collaboration.
- ▶ Architect scalable solutions and oversee code reviews, ensuring high-quality standards.
- ▶ Collaborate directly with clients, gathering requirements, providing technical guidance, and delivering tailored solutions.
- ▶ Foster a culture of continuous learning by mentoring junior developers and organizing internal training sessions.

Key Achievements:

- Scaled user base by 300% for a critical agricultural platform.
- Improved system performance by 40% through database optimization and API enhancements.
- Mentored 5+ developers, improving team efficiency and ensuring high code quality across all projects.

Web Developer | The Foreign Venture Group (FVG)

September 2025 - Present | Remote (Canada)

Key Responsibilities:

- Design, develop, and maintain web applications for various Canadian-based clients.
- Collaborate closely with clients to understand requirements and deliver tailored solutions.
- Ensure optimal performance, security, and scalability for all deployed applications.
